

Rahul Goel

Senior Engineering Manager

Bengaluru, India | +91 8527326862 | therahulgoel@gmail.com | linkedin.com/in/therahulgoel

Summary

Engineering Manager with 13 years scaling iOS platforms to 300M+ users across streaming, payments, and e-commerce. Built video infrastructure, payment SDKs (100M+ transactions), and high-traffic systems (5M+ concurrent users). Led 15+ engineers and delivered measurable business impact.

Experience

SonyLiv (Sony Pictures Networks India) - Senior Engineering Manager, Apps Platform

October 2024 - Present

- Lead a team of 15 engineers, driving hiring, career development, technical roadmap planning, and cross-functional execution with focus on large scale concurrent streaming arch for Asia Cup.
- Led AI-driven engineering initiatives across teams, establishing Amazon Kiro, MCP, and design-to-code workflows to improve developer productivity and delivery velocity.
- Architected and delivered an internal CSAT analytics platform (portal, APIs, database, reporting) using Amazon Kiro, enabling centralized customer feedback analysis and business insights.
- Improved crash-free sessions from 97.5% to 99.9% through modularization, runtime instrumentation, startup optimization, and production performance monitoring

Sharechat - Technical Lead, Apps Performance Streaming

December 2021 - October 2024

- Led technical direction for Moj short-video platform (300M MAU, top 5 social app in India), managing 6 engineers and App Store release process
- Designed and built proprietary video streaming infrastructure with intelligent prefetching, multi-tier caching. reducing costs by 25% (\$1M+ annual savings) while improving playback success rate to 99.8%
- Achieved 30% reduction in data consumption and 18% fps improvement through H.265 codec adoption, adaptive bitrate streaming, and network-aware quality optimization
- Established CI/CD infra using GitHub Actions and Codemagic with automated sanity and UI tests

Groupon - Senior Software Engineer, Merchant Platform

April 2020 - December 2021

- Technical mentor for 5 engineers building merchant-facing iOS app (23M global MAU)
- Architected event analytics system processing 10M+ daily events with efficient batching, retry logic, and offline queueing
- Led Flutter adoption for cross-platform components reducing development effort by 30% for shared features

Paytm - Senior Software Engineer, Payments & Platform

November 2018 - April 2020

- Core contributor to Paytm super-app (93M MAU, 100M+ monthly transactions) focusing on payments infrastructure and platform architecture

- Built reusable payments SDK and server-driven UI framework enabling dynamic content updates and experimentation without requiring frequent App Store releases

Myntra Jabong - Senior Software Engineer, E-commerce Platform

March 2017 - November 2018

- Built critical features for Myntra/Jabong fashion marketplace (55M MAU)
- Designed high-availability session management supporting 5M+ concurrent users during EORS (End of Reason Sale) with zero downtime

Earlier Experience - Software Engineer

April 2013 - March 2017

- **Daffodil Software:** Built healthcare iOS apps (Lybrate, MediNexus) with telehealth, video consultation, and secure medical records
- **Aequor Information:** Developed enterprise apps for Bausch & Lomb with offline-first architecture

Technical Expertise:

Languages & Core:

Swift (Expert), Objective-C, Modern Concurrency, Memory Management, Performance Optimization

iOS Frameworks:

UIKit, SwiftUI, AVFoundation, Core Data, Network.framework

Architecture & Systems:

Modular Architecture, Clean Architecture, Dependency Injection, Video Streaming (HLS/DASH), Caching Systems, Offline-first Architecture

Infrastructure & Platform:

CI/CD, Observability, Experimentation Platforms, Server-driven UI, Performance Instrumentation

Development & AI Tooling:

Xcode, Instruments, GitHub Actions, Fastlane, Tuist, Claude Code, Amazon Kiro, MCP workflows, AI-assisted development workflows, design-to-code workflows

Leadership:

Technical Strategy, Platform Ownership, Mentorship, System Design, Cross-functional Collaboration

Impact & Recognition

- **Scale Impact:** Built systems serving 300M+ users across SonyLiv, Sharechat, Paytm, Groupon, Jabong with 99.5%+ reliability and large-scale mobile performance optimization
- 96.38 percentile in GATE 2013 CSE
- **Community Leadership:** Published 80+ technical articles on iOS architecture and Swift on Medium therahulgoel.medium.com
- Active speaker on iOS performance optimization in Swift Bengaluru meetups
- **Problem Solving:** Solved 350+ problems on LeetCode in Swift

Education

Bachelor of Technology (B.Tech), Computer Science Engineering

ABES Institute of Technology, Ghaziabad - Uttar Pradesh Technical University (UPTU) 2008 - 2012 | (72.78%)

Higher Secondary Certificate (HSC), Physics, Chemistry, Mathematics

S. M. Inter College, Baghpat - Uttar Pradesh Board | 2006 - 2008 | 74.3%
